Do. & 21.10.14 from Mr. Reddy suggests a change in the manner of the drawing up of the report.

A draft extending the period of special duty up to 31st Jan 15 is put up.

17 The pay of the clerk may be increased to 50Rs as strongly recommended by Mr Reddy - Mr Reddy has also spoken to me several times about it & said that Ramarao has had more than one offer from other people of work on higher pay - the increase may be sanctioned with effect from 1st Oct 14.

18 Regarding the suggestion made at the Do of 21 Oct 14 about the way in which the report should be drawn up, I am not in favour of the suggestion made by Mr Reddy to collate the report on a geographical basis instead of on a subject basis.

19 We do not want an itinerary of Mr Reddy's tour, but we want his notes on different branches of activity gathered in the several places collated & examined with suggestions as to how far we might adopt any of the suggestions in vogue -

20 If this is approved a suitable reply may be sent to Mr Reddy.

14th September 1914.

Dear Sir,

I beg to invite your attention to the fact that owing to pressure of work in connection with the University Scheme, my Deputation report has got badly into arrears and I may not be able to complete it for some considerable time. Under these circumstances, I request that orders may be passed extending the period of my deputation and the appointment of clerks and the peon for a concurrent period.

In this connection, I once again press for promotion to my clerk T.S. Rama Rao to Rs.50/-.

Yours sincerely,

Dear Sir,

I beg to recommend that, when the services of my clerk T.S. Rama Rao are engaged after the expiry of the term which had already been sanctioned, he may be given a salary of Rs.55/- per mensem for the period of my special duty or until further orders. He has been of the greatest possible service to me and has done ungrudgingly every variety of work at a time when there was not even a peon attached to this office. Though two clerks were kindly sanctioned by Government, I found it impossible to get another qualified man, with the result that Rama Rao has been doing practically the work of two and in a manner which makes me think highly both of his character and talents as a Shorthand-typist. I know he has had more lucrative chances elsewhere and I think it both just and expedient to encourage him a clerk of his type by an advance in salary.

Yours sincerely,

Dear Sir,

With reference to your D.O. 637/Edn.13-14 dated the 10th October 1914, I beg to state that the amount of work actually done is as follows:

Most of the matter bearing on Elementary Education, Normal Schools, Technical and Vocational, Women's Schools General and Vocational Schools, General Administrative Problems in connection with Education has been collected and typed and my clerk informs me that the typed matter has already assumed a bulk of nearly 500 pages.

I may say that the work of arranging and classifying the materials ~~thematte~~ together with the time required for re-writing a good many portions of them so as to give to the statement a connected, if not a highly polished form would take not less than one month.

I have just commenced writing on Municipal Life

Dear Sir,

In continuation of my D.O. of yesterday I beg to inform you that there is still another chapter lacking namely Government and Methods of promoting Industry and Commerce. Much of the material on this head too has been collected; but the work of collation and re-writing so as to produce a continuous narrative still remains as with the other parts of my work. and as a good bit of my time is sure to be taken by the University Scheme too, I think it would be well to extend my special duty until the end of January 1915.

Yours sincerely,

C. R. Reddy

C.S. Balasundaram Iyer, Esqr., B.A.,

Yelwal Road, Mysore,

31st October 1914.

My dear Balasundaram,

I beg to propose a big change in my work which would result in greater despatch and less worry. If I have to write on the basis of a subject-classification, a great deal of work would have to be done over again. Moreover it will not do to parcel out the themes belonging to geographical entities like Japan and the Philippines according to subjects. For then the integrity of the narrative would be lost. The background or environment would vanish, and without this the phenomena would have neither unity nor reason. So I propose to give a report based on geographical principles bringing together all the subjects studied in any locality under the head of that locality. The table of contents will show the nature of subjects dealt with and be of ample use as subject index.

Please let me know if this is approved.

Yours sincerely,
